Notes to Consolidated Financial	Statements	 6–36

# Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Yeshiva University and its subsidiaries as of June 30, 2021 and 2020, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

PricewaterhouseCoopers LLP

Yeshiva University (the "University") is a private, nonprofit institution of higher education primarily based in New York City. The University was founded in 1886 as the Rabbi Isaac Elchanan Theological Seminary ("RIETS"), with which it is still affiliated, and was chartered as a separate University in 1945. The University brings together the heritage of western civilization and the ancient traditions of Jewish law and life.

The University is comprised of several colleges and schools providing undergraduate, graduate, professional, and post-doctoral education and training. The University's undergraduate education includes Jewish Studies (the Robert M. Beren Department of Jewish Studies and the Rebecca Ivry Department of Jewish Studies), Yeshiva College, Stern College for Women, Sy Syms School of Business, Katz School of Science and Health, and the S. Daniel Abraham Israel Program in Israel. Graduate and professional education is provided at the affiliated Albert Einstein College of Medicine ("Einstein") (Note 1), and at its Benjamin N. Cardozo School of Law ("Cardozo"), Sy Syms School of Business, Wurzweiler School of Social Work, Ferkauf Graduate School of Psychology ("Ferkauf"), Azrieli Graduate School of Jewish Education and Administration, Bernard Revel Graduate School of Jewish Studies, and the Katz School of Science and Health. The University provides instruction to approximately 5,400 undergraduate, graduate and professional students.

The University is accredited by the Middle States Association of Colleges and Schools, Einstein is accredited by the Liaison Committee on Medical Education, and Cardozo is accredited by the American Bar Association. The other academic programs are accredited by appropriate state and professional accrediting agencies and associations.

The University has three Manhattan campuses: the Wilf Campus located in the Washington Heights section, the Israel Henry Beren Campus located in the Murray Hill section, and the Brookdale Center located in the Greenwich Village section. Ferkauf is located in a building in the Bronx, Einstein's is on the Jack and Pearl Resnick Campus in the Bronx. The Wilf Campus, Beren Campus and the Brookdale Center, together with Ferkauf, comprise the Manhattan Campuses. The University operates a museum in New York City and is associated with programs in Israel and Canada.

The University derives its revenues principally from student tuition and fees, government appropriations, contributions, and investment earnings. Additional support is generated through auxiliary activities carried out by the University, such as dining services and residence facilities. The University spends these resources in support of its instructional and research mission.

# æ

# **Consolidated Organizations**

There are several entities (the "Consolidated Organizations") that are controlled by the University for which it provides various administrative services. The financial results of the Consolidated Organizations are consolidated for financial statement reporting purposes.

The Yeshiva Endowment Foundation, Inc. (the "Foundation") was formed in 1927 as a separate not-for-profit corporation organized for the benefit of the University and its affiliate, RIETS. Control of the Foundation is vested in a Board of Directors, all of whom are members of the University's Board of Trustees (the "Board of Trustees"). The Foundation includes five wholly owned, for-profit real estate corporations.

under the related state provisions. The University is subject to the unrelated business income tax on revenue generated by activities unrelated to its tax-exempt mission of education and research, primarily from income generated by certain investments. For the years ended June 30, 2021 and 2020, the University generated net unrelated trade or business income/(loss) of (\$593) and (\$691), respectively. As of June 30, 2021, the University

as meal plans and room and board which are included in auxiliary revenue in the Consolidated Statements of Activities; however the recognition process mirrors that for tuition and fees. Tuition and fee revenues are reported net of scholarships and transfers to AECOM. Scholarships are provided to offset tuition and fees and are either merit or need based. Tuition and fees and room and board revenues are supported by separate contracts entered between the University and the individual student.

Tuition and fees and room and board revenues are recognized as operating revenue in the period in which the University satisfies its performance obligations to its students. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer and is the unit of accounting in ASC Topic 606. The University's performance obligations are to provide education to the student and, in certain instances, other items such as room and board. The University recognizes tuition and fees, and room and board on a straight-line basis over each academic session based on gross price, net of explicit price concessions such as financial aid grants which are applied to tuition and fees. The value that is recognized for each performance obligation is set forth in a publicly available University fee schedule and is identified in the individual contracts with each student. Individual contracts for tuition and fees, and room and board display the transaction price on a standalone basis for each service to be provided to each specific student. Additionally, the contract contains the price adjustment in the form of financial aid grants that are being awarded to the student. Given the timing of each year's academic semesters, nearly all performance obligations on behalf of the University are completed within the fiscal year.

The timing(s) of billings, cash collections and revenue recognition results in accounts receivable and deferred revenue and student deposits on the Consolidated Statements of Financial Position.

to be received within one year are discounted at a risk-adjusted rate that includes a premium for credit risk, if any. In addition, provisions for uncollectible contribution receivables that are related to pledges with donor restrictions are presented under nonoperating activities.

# 

Other revenue consists of government awarded grants and contracts, income from the Jack D. Weiler Hospital of Albert Einstein College of Medicine ('WHAECOM") lease and other program

cash equivalents and restricted cash. At times, cash in banks may exceed Federal Deposit Insurance Corporation ("FDIC") insured limits. Management believes that the credit risk to these deposits is minimal.

#### 

Student receivables are recorded when billed to the student. Student receivables are reduced by an allowance for doubtful accounts. The process for estimating the ultimate collection of receivables involves significant assumptions and judgments. Account balances are written off against the allowance when management determines it is probable the receivable will not be recovered. Historical collection is an integral part of the estimation process related to the allowance for uncollectible accounts. Revisions in allowance for doubtful accounts estimates are recorded as an adjustment to the provision for bad debts.

#### **ii**

The University manages a variety of internal loan programs. Student loans are classified as net assets with donor restrictions. Interest earned on institutional loan programs is reinvested to support additional loans. The repayment and interest rate terms of the institutional loans vary considerably.

### 

The University's split-interest agreements with donors consist primarily of irrevocable charitable remainder trusts for which the University serves as trustee. The fair value of trusts and split-interest agreements are categorized as Level 3 within the fair value hierarchy. Contribution revenue is recognized at the date that the trusts are established, after recording liabilities for the present value of the estimated future payments to be made to the donors and/or other beneficiaries. The liabilities are adjusted during the term of the trusts for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

The University is the beneficiary of certain perpetual trusts and other split-interest agreements held and administered by others. The present value of the estimated future cash receipts from the trusts and agreements is recognized as an asset and as a contribution when the University is notified that the trusts or agreements have been funded. Distributions from the trusts greater than the estimated present value are recorded as contributions and the carrying value of the assets is

#### 

Funds provided by the U.S. Government under the Federal Perkins Loan program are loaned to eligible students and may be re-loaned after collection. These funds are ultimately refundable to the U.S. Government and are presented in the Consolidated Statements of Financial Position as a liability. The Perkins Loan Program was not reauthorized by the federal government in September 2017, and therefore, collected funds will be returned to the U.S. Government and the University proportionate to their original funding.

### 

The University values certain financial and nonfinancial assets and liabilities by applying the FASB pronouncement on *Fair Value Measurements*. The pronouncement defines fair value and establishes a framework for measuring fair value that includes a hierarchy that categorizes and prioritizes the sources used to measure and disclose fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The hierarchy has three levels based on inputs that market participants would use in valuing the asset or liability based on market data obtained from sources independent of the University as follows:

- Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities.
- Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable.
- Level 3 Unobservable inputs for the asset or liability.

Inputs broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics and other factors. The University is required by the pronouncement to maximize the use of observable inputs (Levels 1 and 2) and minimize the use of unobservable inputs (Level 3). The University considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, provided by independent sources that are actively involved in the relevant market, and not proprietary. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the University's perceived risk of that instrument.

Assets and liabilities are disclosed in the Notes to Consolidated Financial Statements within the hierarchy based on the lowest (or least observable) input that is significant to the measurement. The University's assessment of the significance of an input requires judgment, which may affect the valuation and categorization within the fair value hierarchy. The fair value of assets and liabilities using Level 3 inputs are generally determined by using pricing models, discounted cash flow methods or calculated Net Asset Value ("NAV"), which all require significant management judgment or estimation.

As a practical expedient, the University is permitted, under the pronouncement, to estimate the fair value of an investment in an investment company at the measurement date using the reported NAV. Adjustment is required if the University expects to sell the investment at a value other than NAV or if NAV is not calculated in accordance with GAAP. All investments for which fair value is

another systematic and rational basis. Adoption did not have a material impact on the University's consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement. The new guidance simplifies fair value measurement disclosures through the removal and modification of a number of investment related disclosure requirements. Certain disclosures are no longer required including amount of and reasons for transfers between Levels 1 and 2; policy for timing of transfers between level and valuation processes for Level 3 investments. The ASU is effective for fiscal year 2021 for the University. Adoption did not have a material impact on the University's consolidated financial statements.

#### -

In September 2020, the FASB issued ASU No. 2020-07, Not-for-Profit Entities (Topic 958, Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets. The ASU amends financial reporting requirements in Topic 958, Not-for-Profit Entities by providing new presentation and disclosures requirements about contributed nonfinancial assets for not-for-profit entities. This ASU is effective for fiscal years beginning after June 15, 2021. The University is evaluating the impact of the new standard on the University's consolidated financial statements.

### R

Certain previously reported amounts in the fiscal year 2020 consolidated financial statements have been reclassified in order to conform to fiscal year 2021 presentation.

ydilli

As part of the University's liquidity management strategy, the University structures its financial assets to be available to meet cash needs for general expenditures, liabilities, and other obligations as they come due. A significant portion of the University's annual expenditures are funded by operating revenues in the current year including tuition and fees, endowment support, auxiliary enterprises, gifts for current use and other revenues.

The University routinely monitors liquidity required to meet its ongoing operating needs and commitments while striving to maximize the investment of available resources within its investment pools.

The University's financial assets available within one year of the Consolidated Statements of Financial Position for general expenditures, such as operating expenses, scheduled principal payments on debt, and capital projects are as follows:

		0	Q	
BA.				
Cash and cash equivalents	\$	19,363	\$	19,436
Student receivables		10,400		9,300
Pledge receivables due in one year		17,911		11,861
Short term investments		64,200		36,500
Estimated spending appropriation	1	26,144		25,801
Total financial assets available within one year	\$	138,018	\$	102,898

In addition, the University has board-designated funds of \$4,996 and \$4,024 at June 30, 2021 and 2020. Although the University does not intend to spend from such funds, other than amounts appropriated for general expenditure as part of its annual budget approval and appropriation process, amounts from such board-designated funds could be made available if necessary.

The University was in compliance with its bond and bank loan covenants at June 30, 2021 and 2020. Management believes that the University will have sufficient resources to meet its ongoing obligations, through June 30, 2023.

Due to the COVID-19 pandemic, Congress prov

2020, respectively.

The OIFunds are managed to a shorter-term investment horizon with an emphasis on liquidity. Investments include cash and cash equivalents and fixed income securities.

Segregated Investments include investments that are donor-directed and assets held in irrevocable charitable remainder trusts. These investments include cash and cash equivalents, U.S. Government obligations, mutual funds (fixed income), corporate debt, State of Israel Bonds, corporate stocks, mutual funds (equities), investment receivables, investment payables and other investments.

At June 30, 2021 and 2020, the value of the University's interest in these groups is as follows:

	9	0	
Long term pool	\$ 642,343	\$	493,907
Operational investment funds	94		94
Segregated investments	 4,561		4,768
Total investments, at fair value	\$ 646,998	\$	498,769

Included in segregated investments are irrevocable charitable remainder trusts of \$678 and \$837 as of June 30, 2021 and 2020, respectively. Included in investments held for AECOM on the Consolidated Statements of Financial Position are \$24,387 and \$18,993 of irrevocable charitable remainder trusts as of June 30, 2021 and 2020, respectively.

The following tables present the fair value hierarchy for those assets reported at fair value in the Consolidated Statements of Financial Position as of June 30, 2021 and 2020. The fair value amounts presented below are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Consolidated Statements of Financial Position as of June 30, 2021 and 2020:

	\$	4,996	\$	576,215	\$ 581,211

endowment that differs from the University's policies, the donors' intent prevails. For fiscal years 2021 and 2020, the University approved an additional appropriation of approximately \$1,895 and \$2,431, respectively from certain accessible endowment gains in accordance with NYPMIFA guidelines, and for fiscal year 2021, the University approved a one-time special appropriation in order to repay a portion of the Manhattan Campuses prior borrowings from the LTPool of approximately \$12,500.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the original gift value, which represents the total of the initial and subsequent donor contribution amounts. When this occurs, the deficit is classified as a reduction of donor restricted net assets. Deficits existed in various donor-restricted endowment funds as of June 30, 2021 and 2020, which combined had an original gift value \$22,328 and \$80,748 at June 30, 2021

Write-offs of a student loan receivable are based primarily on the age of the receivable and an evaluation of any recent activity in the account. Overall default rates and an evaluation of general economic conditions are reviewed at least annually. The University, because of its close and continuing relationship with its students and graduates, seeks to work closely with the students and graduates to help ensure repayment.

#### ١¢

Contribution receivables, net consisted of the following at June 30, 2021 and 2020:

	0	0	
Less than one year	\$ 22,005	\$	14,733
One to five years	45,783		23,867
Greater than five years	 23,911		22,822

Allowance for uncollectible amounts	 (3,218)		(4,702)
Total contribution receivables, net	\$ 83,063	\$	52,295

As of June 30, 2021 and 2020, 60% of gross contribution receivables were from five donors.

#### ()DU

Other assets consist of grant receivables, prepaid expenses, deposits, donated fractional interests in real estate, due to/from related entities, rent receivables, and various other miscellaneous receivables. Included at fair value are the assets of the University's 457(b) deferred compensation plan (Note 8).

The University has a lease agreement with Montefiore, whereby exclusive occupation, management, and control of the Jack D. Weiler Hospital of Albert Einstein College of Medicine ('WHAECOM") is with Montefiore. As of September 9, 2015, the annual lease payment is \$2,500 with increases thereafter of 2% compounded annually through 2114. The rental income on this lease is recognized evenly over the life of the lease, and accordingly, a rent receivable of \$37,886

Given the positive structural changes at the High Schools, the University and the High Schools agreed to reduce the due to related organization balance, within other assets and receivables in the Consolidated Statement of Financial Position at June 30, 2021 by \$2,500 for previously funded working capital advances to the High Schools. This is reflected as transfers from related party in the Consolidated Statement of Activities.

#### 7 均衡利

Land, buildings and equipment, net consisted of the following at June 30, 2021 and 2020:

	Q	0	
Land	\$ 13,717	\$	13,717
Buildings and improvements	404,410		398,704
Equipment, furniture and fixtures	29,788		27,863

	451,860		444,229
Less: Accumulated depreciation and amortization	 (275,837)		(262,751)
Total land, buildings and equipment, net	\$ 176,023	\$	181,478

The Depreciation and amortization expense related to buildings and equipment for the years ended June 30, 2021 and 2020 was \$13,086 and \$13,038, respectively.

#### 8

The University has several defined contribution retirement plans in which most full-time and many part-time employees participate. The University's contributions are based on specified percentages of each employee's annual salary. It is the University's policy to fund retirement plan costs currently. Total retirement plan expense for the years ended June 30, 2021 and 2020 was \$4,423 and \$4,168, respectively.

The University has a 457(b) deferred compensation plan, which is offered to select management employees. The employee contributions are capped at the annual federal limit for deferred compensation. The assets related to this plan are included in other assets and receivables in the Consolidated Statements of Financial Position and amounted to \$17,128 and \$13,586 as of June 30, 2021 and 2020, respectively. The assets primarily consist of mutual funds and a guaranteed interest account classified as Level 1 based on the fair value hierarchy described in Note 4. The assets of the mutual funds for the years ended June 30, 2021 and 2020 were \$13,717 and \$9,868, respectively. The contract value of the guaranteed interest account for the years ended June 30, 2021 and 2020 was \$3,411 and \$3,718, respectively.

Offsetting liabilities that relate to this 457(b) plan are included in other liabilities as of June 30, 2021 and 2020.

The University participates in the 1199 SEIU Health Care Employees Pension Fund, a multiemployer defined benefit pension plan, for its 1199 union employees.

The University makes cash contributions to the plan under the terms of collective-bargaining agreements that cover its union employees based on a fixed rate and hours of service per week worked by the covered employees. The risks of participating in a multi-employer plan are different from other single-employer plans in the following aspects: (1) assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of other participating employers; (2) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and (3) if the University chooses to stop participating in the multi-employer plan, the University may be required to pay an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The University contributed \$1,182 and \$1,029 in cash and recorded expenses for the 1199 Pension Fund for fiscal 2021 and 2020, respectively. The University's contributions to the 1199 Pension Fund represent less than 5% of its total contributions to all retirement plans.

The following table includes additional disclosure information related to the 1199 Pension Fund.

The Pension Protection Act zone status indicates the plan's funded status of either at least 80% funded (green) or less than 80% funded (red). A zone status of red requires the plan sponsor to implement a Funding Improvement Plan or Rehabilitation Plan.

The accompanying Consolidated Statements of Activities report expenses by functional classification in accordance with the educational mission of the University in categories recommended by the National Association of College and University Business Officers. The University's primary program services is instruction. Expenses reported as Academic support, Student services and Auxiliary enterprises are incurred in support of this primary program services. Institutional support includes general and administrative expenses of the University.

Natural expenses attributable to more than one functional expense category are allocated using reasonable cost allocation techniques. Depreciation, operations and maintenance expense are allocated on a square footage basis. Interest expense on indebtedness is allocated to the functional categories that have benefited from the associated debt.

Expenses by functional and natural classification, after allocating operations and maintenance, depreciation, and interest, are as follows for the years ended June 30, 2021 and 2020:

		<b>ä</b> h 6	<b>b k</b>

Subsequent event guidance requires the University to evaluate subsequent events to determine whether they provide additional evidence about conditions that existed at the date of the consolidated financial statements, and to determine if those events require recognition or disclosure in the consolidated financial statements. The University has performed an evaluation of subsequent events through December 23, 2021, which is the date the consolidated financial statements were issued.
